

GOCART 120

AUTONOMOUS MOBILE TRANSPORT SYSTEM

ADVANTAGES AT ONE GLANCE

- ➔ Secure navigation thanks to 3D cameras for spatial orientation
- ➔ Sensors to assess the optical distances and speed measurement
- ➔ Good value for purchase and installation. Integration into hospital operation without structural changes.
- ➔ Visual and acoustic communication with the surrounding environment.
- ➔ Flexible use: route planning on-schedule deliveries and on-demand for spontaneous deliveries
- ➔ Independent use of elevators and electric doors
- ➔ Access restrictions via RFID cards or number combinations
- ➔ 360 degree rotation for optimal space-optimized laboratories or compact design
